

# AFS-120

Multiple Feeders Loading Preparation Station

[www.dediprogram.com](http://www.dediprogram.com)

DediProg has designed a multiple feeders loading preparation station, AFS-120, for tape input. It supports different sizes of electrical tape feeders from 8mm up to 44mm. The maximum slots are up to six units, and the power is fully connected for each slot. It is designed with 4 mobile wheels, which can be moved around and set up easily. Also, the bottom space is designed to store related parts, such as carrier tapes, etc. AFS-120 is not only cost effective but efficiency enhanced as well. Enjoy faster preparation and easy operation now!

## Features

1. Up to six slots in one station
2. Easy preparation and reduced downtime
3. Fully powered and machine-mounted
4. Designed with a locking swing arm for safety operation

## Specification

Support Feeder Size	8mm/ 12mm/ 16mm 24mm/ 32mm/ 44mm
Maximum Feeder Quantity	6 units
Input Voltage	220V
Dimension (W*D*H)	900 x 550 x 1050mm
Weight	45 kg
Material	Stainless steel
Main Configuration	6 slots, power connector, and 4 mobile wheels
