

## EVO Elevate

### for Lynx EVO

Expand the range of users for your stereo microscope, without compromising on ergonomics. Good ergonomics directly lead to a number of business and user benefits.

Lynx EVO stereo microscopes' ergonomic prowess is further enhanced by the addition of the EVO Elevate.

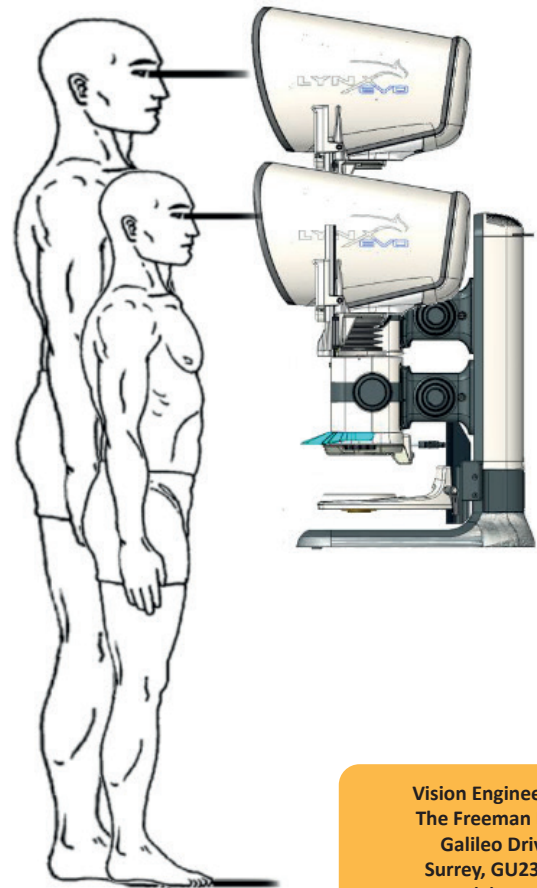

- Users of different statures can benefit from an ergonomic 'neutral neck' position
- One stereo microscope can be shared by many users without significant configuration changes
- 298mm vertical travel
- Movement range will accommodate approx. 95% of women and 90% of men\*
- Compatible with a wide range of Lynx EVO accessories

#### Business benefits of good ergonomics:

- Improved operator productivity
- Improved operator yield
- Improved product quality
- Reduced operator absenteeism
- Reduced operator fatigue
- Reduced risk factors for musculoskeletal disorders

Eye Height standing (cm) (Floor to eye-point.)			
Percentile	Men	Women	Percentile
1	148.40	137.39	1
5	152.82	141.52	5
10	155.08	143.67	10
25	158.88	147.30	25
50	163.26	151.45	50
75	167.82	155.77	75
90	171.29	159.75	90
95	174.29	165.13	95
99	178.15	166.43	99

\* Bench height needs to be set appropriately.
