

## **PGA-710 AUTOANALYSIS SYSTEM KIT**

**61-100-0003**

### **Specifications:**

- Measure, Record, Analyze and Report Electrostatic Voltage & Decay Performance:
  - o Footwear and flooring combinations
  - o Carts and chairs
  - o Packaging Materials and Systems
  - o Production Aids and Materials
  - o Worksurface Voltage Suppression
  - o Ionization Offset Voltage & Decay Performance
- Provides Strip Chart Recording Capabilities  $\pm 2$  kV
- Analyzes Voltage Generation and Decay Times
- Statistical Analysis at touch of a button
- Automatically Generates Reports
- Imports & Exports data via Microsoft Excel
- Automatically captures temperature and relative humidity
- Accepts data from any analog instrument having  $\pm 2$  volt output
- Self-Powered, rechargeable battery
- Charges with universal charger or via USB
- Capture & stores data for later download
- Multiple sampling rates: 50, 100 & 200 samples/sec
- Large data capacity

### **Includes:**

- ✓ PGA-710 Autoanalysis Set
- ✓ Autoanalysis Application Software Disk
- ✓ PFM-711A Field Meter
- ✓ CPM-720A Charge Plate Assembly
- ✓ PCS-730  $\pm 1$ KV Charging Source
- ✓ PHT-771 Digital Psychrometer
- ✓ GAP-005 Ground Adapter Plug
- ✓ PFA-861-H Handle
- ✓ PWS-610M Fabric Band Wrist Strap
- ✓ Carrying Case with Handle
- ✓ Accessory Box
- ✓ Operator's and How to Measure Manuals
